

WASHINGTON, SUNDAY, NOVEMBER 27, 1904.

**"BEND-EASY" SHOES** —Just patented and placed on sale less than a month ago—are already making **A BIG HIT!****YOUR INTERESTS OUR FIRST AIM!****"NORDICA" \$4** Women's Guaranteed Patent Kid Boots at **\$2.95**

YESTERDAY we placed on sale 2,000 pairs of the famous "NORDICA" \$4 FINE DRESS BOOTS at \$2.95. We secured these shoes at a big price concession, and are giving our patrons full benefit of the purchase. This is an exceptionally fine lot of latest button and laced styles—all made of Booth & Co.'s guaranteed patent ideal kid—well worth their regular selling price of \$4—and a bargain that you can't afford to miss at \$2.95.

But that's only one—here are some other special attractions that will make this another record-breaking week.

## A Pure Whiskey

# Oronoco Rye

In speaking of Oronoco Rye, we simply state facts as they actually exist—irrefutable facts that can be backed up to the letter. We don't claim Oronoco Rye is the best whiskey in the world—but we do claim and can substantiate it, that at its price Oronoco Rye is a superior high grade whiskey. Oronoco Rye is popular in the homes because it deserves to be—it is priced reasonable and satisfies the most exacting demands.

Drop postal or phone us and we'll send you a bottle put up in a neat carton package.

## Corby's Mother's Bread

is the Cheapest Food that money can buy when considered from the standpoint of nourishment.

It's more nourishing than meat—in fact, it would take "dollars' worth" of meat to return to your system what "cents' worth" of Mother's Bread will return.

We know that and have known it, but we have gone further and called in the evidence of scientists to verify our knowledge.

In comparison with many other breads on the market Corby's Mother's Bread has proved its claim to be the best bread obtainable.

A number of tests were made recently of many breads offered for sale in Washington and proved that these breads contained:

30% more acid,  
53% more acid,  
77% more acid,  
150% more acid

than normal—which means that this excess of acid has been developed in the breads at the cost of nourishing properties. The same tests showed Corby's Mother's Bread as it is served you to contain only the normal amount of acidity as contained in the raw ingredients used. There's no stronger argument for the superiority—the nourishing qualities—the purity of Mother's Bread.

Make it a point to order Corby's Mother's Bread next time. Notice the difference in color—notice that it isn't dry and chaffy and lumpy, but white, light and as delicious as well-made cake.
